

5 partition ballistic (plaster or fiberboard) wall

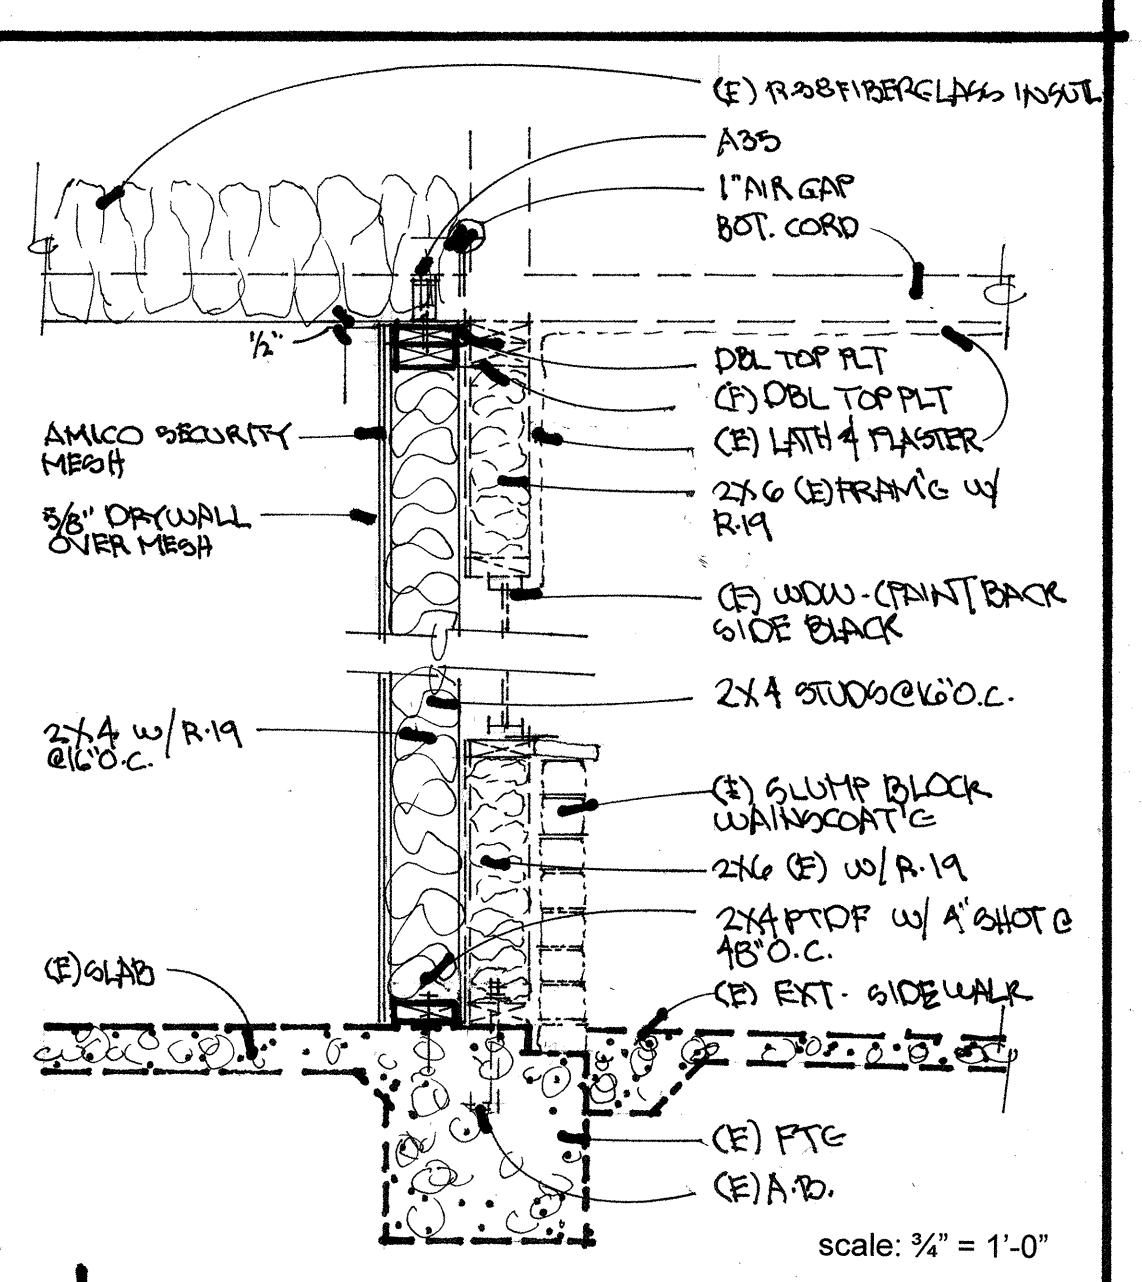

4 dbi round ballistic plaster wall & dr scale: 3/4" = 1'-0"

3 dbi round ballistic plaster wall scale: 3/4" = 1'-0"

2 party ballistic fiberboard/security mesh wall

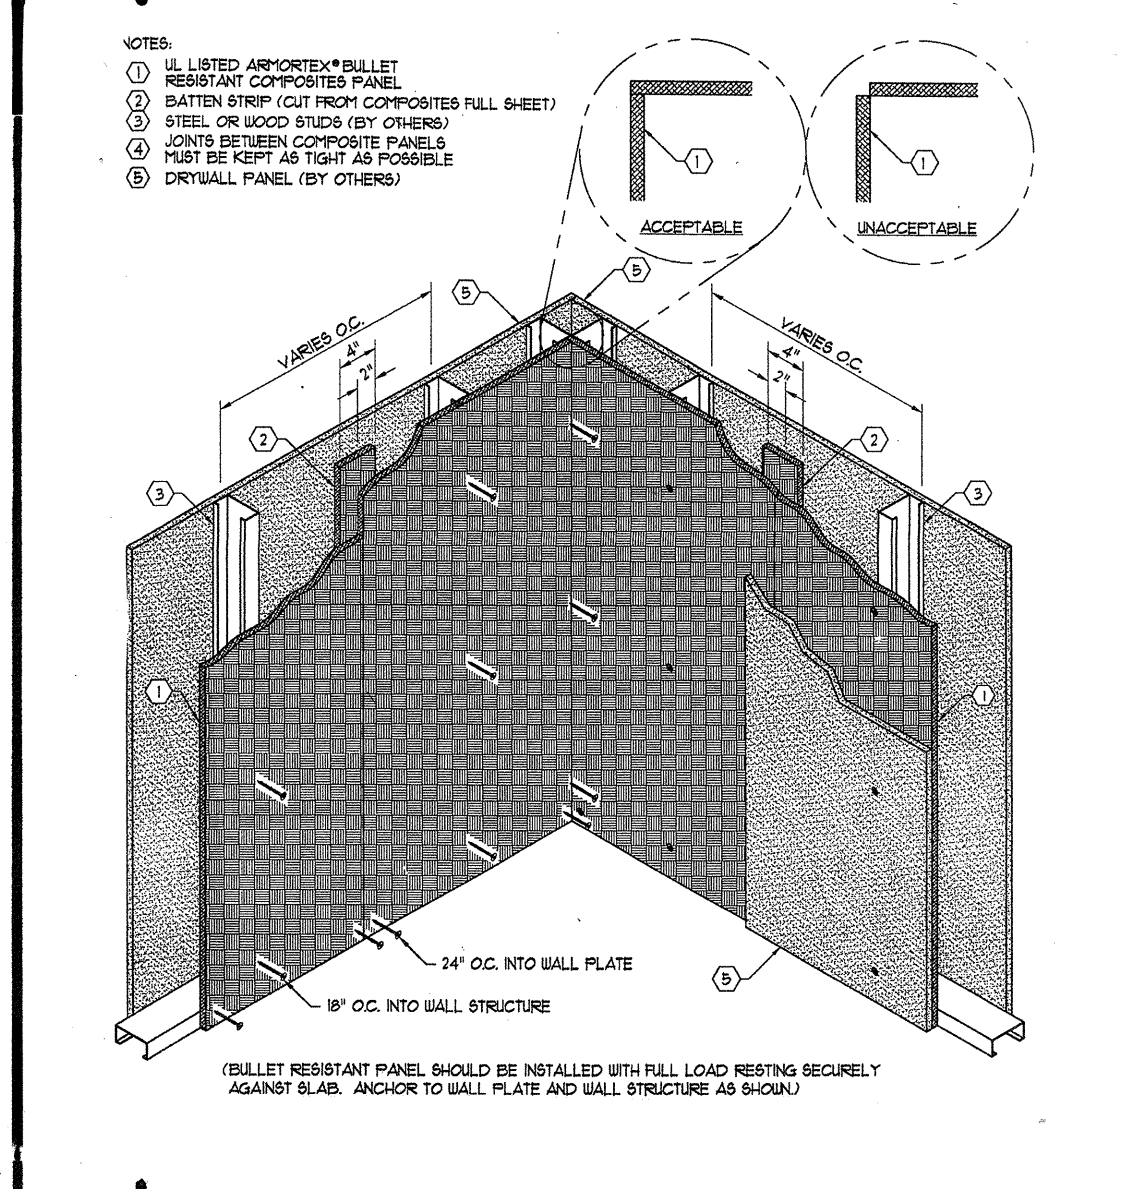

1 perimeter ballistic plaster/security mesh wall

**PERFORMANCE BENEFITS**

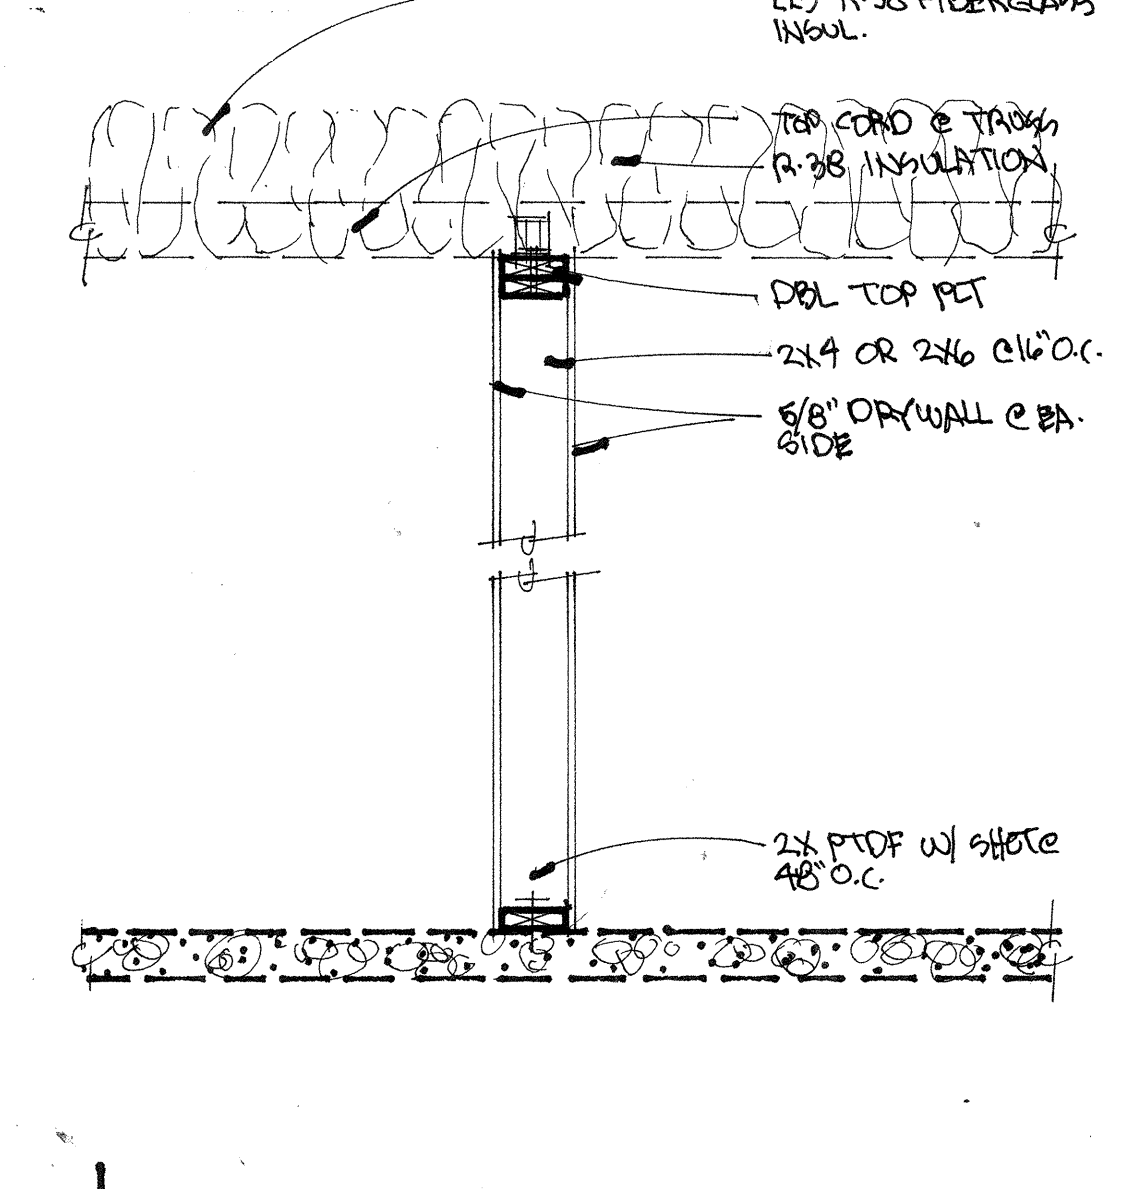

- Provides a hard, durable coating over many wall surfaces, over 8500 PSI (typically 9,000+ PSI) compressive strength (Per ASTM C109)
- Applies directly over gypsum board, EPS foam, existing stucco, cement board, CMU blocks or wood substrates using mesh impregnated BallisticCrete.
- Noncombustible building material (Per ASTM E136)
- Zero flame spread, and zero smoke developed indices (Per ASTM E84)
- Resistant to mold and mildew growth (Per ASTM G21)
- When applied over EPS foam, BallisticCrete™ meets ICC building code required fire protection requirements (Per UBC 26-3, NFPA 286, and IBC Section 803.2.1, Corner Room Fire Tests)
- Meets all the emission level requirements of the GREENGUARD Product Quality.
- Can be applied to create both smooth and textured finishes; and, it can be painted.
- Pre-formulated mix, needs only mixing on site, nothing to add.
- Mix and apply using pumps/sprayers or troweled by hand.

| Product         | Packaging | Applied Thickness | Coverage      | lbs/sqft Protection |
|-----------------|-----------|-------------------|---------------|---------------------|
| BallisticCrete™ | 75-lb bag | 5/8"              | 12 sqft/bag   | 6 Hand Gun          |
| BallisticCrete™ | 75-lb bag | 3/4"              | 9.25 sqft/bag | 7 Hand Gun          |
| BallisticCrete™ | 75-lb bag | 7/8"              | 9 sqft/bag    | 8 Hand Gun          |
| BallisticCrete™ | 75-lb bag | 1"                | 7.5 sqft/bag  | 10 Hand Gun         |
| BallisticCrete™ | 75-lb bag | 1.5"              | 5 sqft/bag    | 15 Rifle            |
| BallisticCrete™ | 75-lb bag | 2"                | 3.75 sqft/bag | 20 Rifle            |
