

REPORT TO THE COMMUNITY AND CULTURAL AFFAIRS COMMISSION

DATE: June 14, 2017

TITLE: Discussion Regarding Preservation of Metal Sculptures

Prepared by: Commissioner Breanna Sewell and Vice Chairman Requita Grant

Reviewed by: Community Development Director, Daniel Porras PE

RECOMMENDATION

Update and discussion.

DISCUSSION

The artwork has rust dripping down the side of the bases and therefore does not look clean or professional.

The Commission should consider having the sculptures and/or bases painted (or cleaned) to save them from further deterioration.

It is recommended to consult with the Artist to determine his recommendation.
