Have you ever attended a City Council Meeting? ☒ No ☐ Yes

Have you ever attended a City Commission Meeting? ☒ No ☐ Yes If yes, list which commissions and approximately how many.

Describe your knowledge of the functions, regulations and procedures of the Commission (1st choice) on which you would like to serve:

Although I lived in Desert Hot Springs for 6 years, only recently have I become "semi-retired". I have lived in two cities. Desert Hot Springs and predominantly San Diego during this period. I became very familiar with the functions of the commission when I became involved with the ordinances involving fencing and later with the conversion from septic to sewer. I have intended to become involved with City management earlier. Unfortunately, until now, I have been unable since my work schedule prevented involvement.

What specific skills, attitudes, and experience do you think you have that will enhance the work of the Commission?

I have performed as a liaison and project manager for 5 elected officials over 20 years. I also owned several business, and currently I am self employed operating as a LLC. I believe my varied experience dealing with political agendas, and goals, at the executive level, for the County of San Diego, and my positions reporting directly to elected officials has provided me the ability to work well within and for political organizations.

What specific issues or problems face the commission? Do you have suggestions to address these issues or problems?

Review and normalization of existing codes. There are many codes that are contradictory and poorly presented resulting in either non-compliance or non-conformance. The goal of the planning commission should be to create a vision for "all" constituents so that a community grows.

Appointed Commissioners may be required to submit a Fair Political Practices Act, Statement of Economic Interests (pursuant to Government Code §87200 and/or Desert Hot Springs Municipal Code Section §2.20.050
