Prepared by: Public Works Administrative Assistant, Lynne Paul

RECOMMENDATION:

Discuss the Art Inventory Program

BACKGROUND / DISCUSSION:

The Community and Cultural Affairs Commission started an Art Inventory Program where each Commissioner would report on a zone in the City (see attached zone map) taking pictures and recording all known information on each piece of artwork. This information was to be recorded in a Google Sheets document (attached) and photos of the corresponding pictures placed in the Photos file.

This project was not completed by the previous Commission. The current Commission needs to decide if they want to continue with this project.
