

Artist Bio - Zohal Dara

I began my career in graphics design and editing in 2003. I have been in the industry for over 15 years and bring a unique element of artistic creativity. I graduated from University of California Riverside in 2002 in the field of public relations in business management and received my Masters in Communications Management at Cal State Fullerton, 2007.

I chose equestrian designs for my clients to define the importance of beauty and strength toward their business and personal growth.

For me, the horse is a very mystical animal as it is entirely dependent on their ability to master intuitive energy. I love how they are in communication and control with their trainers and riders. My own home exhibits many horses to display their spiritual divinity.

Growing up in Germany, before coming to the states, my passion for horses came while growing up on my neighbor's ranch. I learned to ride at age 5 and has been riding since.

Thank you,

Zohal Dara
