Problem domain solutions

---

## What specific issues or problems face the Commission/Board? Do you have suggestions to address these issues or problems?

Last year I bought the house at 66170 5th street and it has become clear we need an authoritative presence to maintain residents rights to quiet enjoyment

I would like to draft a Comprehensive solution proposal for noisy nuances due specifically as a result of ground bound very low frequency intrusion from sub woofers and or transponders (shakers) and lack of proper authoritative training and response in identification and abatement of vibrations that have an immediate negative impact on about 4% of the population (~160,000,000)

according to environmental authorities worldwide long term exposure has negative impact on the entire population regardless of sensitivity or awareness of its presence. It is destroying my life and I am not being hyperbolic in my contention

I am collating the evidence I have gathered and documenting my methodology as well as a means by which to demonstrate it regardless of ones sensitivity with self evident explanatory power by isolating the inaudible frequencies amplified and show when recorded with noise cancellation it is once again inaudible- I am also looking in to spectrum frequency analysis using a measurement microphone and appropriate calibration as required to admissible in a California courtroom .

---

## Disclosure

Appointed Commissioners may be required to submit a Fair Political Practices Commission (FPPC), Statement of Economic Interests Form (Form 700) pursuant to CA Government Code § 87200 and/or Desert Hot Springs Municipal Code § 2.20.050.

As an appointed commissioner or boardmember, State law requires two hours of training in general ethical principles and ethics laws every two years. More information will be provided upon appointment.

Some or all of the content contained in this application and its attachments may be subject to disclosure pursuant to the California Public Records Act (CA Government Code § 6250, Et Seq.)

I certify that the above statements are true and correct to the best of my knowledge:
