Please see above information regarding my candidacy. I have a bachelors degree from the University of Wyoming in business and have completed masters courses at Harvard Business School.

I am community focused , hard working, and have excellent communication skills. Having lived and traveled in numerous places, I am grateful to have the experience and exposure to numerous cultures and situations that will be helpful in a role with the City Council.

3. In your opinion, what are the most important issues facing the City of Desert Hot Springs? There are many things that could benefit the growth and continued financial security of the City; however, given the day and age of laws around the Hospitality and Cannabis industry, and increased tourism and business that support that, I would like to focus on that and suggest the following:

-Continue focus on ensuring Desert Hot Springs remains a prominent cannabis cultivation, management, retail and adjacent businesses business for the city. This can be capitalized in the short term with timely approvals and guidance for development projects and in the longer term with more strategic planning and oversight (e.g. a Cannabis Corridor, increased health and wellness organizations), which will also help drive a healthy and successful community.

-The concept of a development advocate for businesses interested in pursuing their industry and real estate projects in the City would be a solid way to get new business and money into the city, thereby driving tangential businesses along the way (restaurants, hotels, spas and technology organizations to come here.

-Along with that, speed is of the essence in enticing and securing organizations in all industries to come to Desert Hot Springs. I would envision this involving an advocate who would help drive the interest in the City and follow-through with assistance in proper documentation, approvals and guidance in development here.

4. What vision do you have for the future of the City of Desert Hot Springs?

My vision is for the City to be the preeminent cannabis cultivation, distribution and tourism in the area. I envision "riding the wave" of cannabis, hemp and CBD innovation in the Coachella Valley, which may include the following:

-Building new facilities to drive innovation and enable successful organizations to grow and thrive in Desert Hot Springs is critical to achieving this vision. This could include hotels, spas, restaurants and other health related initiatives. -Desert Hot Springs to be the prime location to motivate individuals and organizations to do business here; this could be fueled by tax incentives for movement in to town and expansion of existing operations.

-To achieve this vision, the City will need to create unique and innovative incentives to drive growth and fuel future success in hospitality, cannabis technology and innovation and all of the multitude of industries and organizations that will benefit financially and enable monies to be funneled into a nicer and safer looking community that the entire community is proud to be a part of during our expansive growth and beautification efforts in the community.

 Use this space to provide any additional information or statements. Your comments will assist the City Council in giving your application the fullest consideration.

Thank you for the review of my application and consideration of my role with the City of Desert Hot Springs. I am tremendously excited for the opportunity to work with and in the community and to help drive the growth to make Desert Hot Springs one of the most desirable places to do business in the valley

CERTIFICATION AND AUTHORIZATION

I certify that all statements made in this application are true and complete. In compliance with State law, I understand that I will be required to tile a Statement of Economic Interests upon appointment to office, and annually thereafter.
