

## **Affinity Recovery Commitment**

**Affinity Recovery** believes that companies should commit to the safety and welfare of the communities in which they operate. In line with this belief, Affinity Recovery commits to the following.

**Public Safety:** promptly following the issuance of the conditional use permit and on each anniversary thereof, Affinity Recovery commits to make a payment of \$20,000 to the City of Desert Hot Springs to augment public safety services or defray existing public safety expenses.

**Community Welfare:** during the time that Affinity Recovery is conducting the conditionally permitted business from the subject property, Affinity Recovery commits to provide a scholarship for treatment and a bed for up to 30 days without charge to one (1) resident of the City of Desert Hot Springs at a time upon 7 days notice. In order to be eligible for the scholarship, a person must be a resident of the City of Desert Hot Springs, meet all the qualifications and requirements for admission to Affinity Recover program, except the requirement to pay for the first thirty (30) days, and not have previously been treated by Affinity Recovery. Scholarship recipients will be responsible for costs of treatment beyond the 30-day scholarship period and may be required to provide proof of financial responsibility for such costs.
