

**Mini Business Plan
Tuscan Springs Hotel & Spa**

To Whom It May Concern:

The reasons we are pursuing installing a bar at Tuscan Springs Hotel & Spa is because it has been brought to our attention thru recommendations by many of guests. We look to provide a more enjoyable and convenient experience, which allows for better relaxation for our guests. This in turn will also encourage guests to return more often for future visits to the City of Desert Hot Springs and Tuscan Springs Hotel. The bar at Tuscan Springs will be utilized to provide a beverage service for the Hotel and Day Spa guests of Hotel. The bar will not be available for persons who are not paying guests of the Hotel/property. The bar will employ 2-4 new employees at Tuscan Springs Hotel. The employees will consist of Bar keeps and clean up staff. The bar is not going to provide any entertainment or events at this time. Currently we are looking to have the bar be available Friday thru Sunday and Holidays from 11am to 8pm, with future consideration to be open 6-7 days a week.

The bar will be positioned within the pool area but will be part of the existing building structure. Guests will be able to walk up to a counter/bar to purchase beverages. There is not specific enclosed or otherwise designated seating or specific area for guests to consume their beverages. Guests can move freely all about the property to consume their beverages where they like. We are serving all beverages in plasticware or aluminum container to ensure the safety of our guests and maintain a safe pool area.

Thank you for taking the time to review our plans.
