	What specific skills		ence do you think you	have that will enhance the			

I completed my undergraduate work in urban planning and while I have not worked in the field I am still passionate about the needs of the community that I reside in. As a parent in this city, I would like to be involved in the redevelopment to create a family-centric community that addresses the needs of the residents.

What specific issues or problems face the Commission/Board? Do you have suggestions to address these issues or problems?

The problems that face the board is creating access to quality affordable housing that will meet the needs of this community. Also as a resident of Desert Hot Springs for the past six years permanently the community lacks the resources to keep residents engaged. There are no shopping, dining, or entertainment options to satisfy the needs of the residents which forces us to spend our money outside of our community by visiting neighboring cities such as Palm Springs, Cathedral City, and Rancho Mirage. Not only does this impact our city fiscally it also creates a stigma for potential residents who feel this is not a place to live because of the lack of resources available to them. I love this city and advocate for it consistently; however, I also see the shortfalls that can be rectified to make it a great city.
