- B) An Ordinance of the City Council of the City Of Desert Hot Springs Correcting Certain Typographic Errors to Reflect the Proper Density By Amending: 1) Land Use Table 17.08.02 "Development Standards-Residential Districts"; And 2) Land Use Table 17.14.02 "Development Standards- Mixed Use Districts"

### DISCUSSION

The proposed amendment to the General Plan Update ("GPU") and Zoning Ordinance is to correct typographical errors in order to properly reflect the minimum density for the Residential High (R-H) Land Use and Zoning Designations and the Mixed Use Corridor (MU-C) Land Use and Zoning Designations. The corrected density for Residential High (R-H) and the Mixed Use Corridor (MU-C) is 20 – 30 dwelling units per acre. With respect the typographical error please see the letter provided by MIG attached to the Ordinance and Resolution.

**Environmental Determination**

On May 26, 2020, the City Council approved the General Plan Update and in doing so adopted the Environmental Impact Report (EIR). Pursuant to Section 15162(a) of the CEQA regulations, once an EIR has been adopted for a project, no subsequent environmental review needs to be completed unless there are substantial changes in the project that warrant additional review. No significant changes are proposed as a part of the proposed project.

**FISCAL IMPACT**

None.
